

RAVI JOSHI

Senior Full-Stack Developer | AEM Specialist

Bengaluru, India | rsjoshi2912@gmail.com | +91-9509333299 | linkedin.com/in/ravi-shanker-joshi

PROFESSIONAL SUMMARY

Full-Stack Software Engineer with 6+ years of experience designing and delivering enterprise web applications, content platforms, and customer-facing products end-to-end. Hands-on across the entire stack: backend services in Java, Spring Boot, Python, and Node.js; modern frontends in React, Vue.js, and TypeScript; and headless/decoupled architectures using REST and GraphQL. Strong specialization in Adobe Experience Manager (AEM Sites, Assets, DAM, AEM as a Cloud Service, AEM Guides) provides a deep content-platform anchor, complemented by production experience with the MERN stack, headless CMS patterns, AI-assisted development and integrations, and cloud-native deployments on Azure and GCP. Comfortable owning solutions from architecture through production release, mentoring teammates, and writing maintainable, performant, and secure code.

CORE SKILLS

- **Languages:** Java, Python, JavaScript (ES6+), TypeScript, HTML5, CSS3, SASS/LESS, HTL (Sightly), SQL, XML
- **Frontend:** React, Redux, Vue.js, Node.js, Express.js, Next.js patterns, Webpack, Bootstrap, jQuery, Responsive UI, Accessibility (WCAG)
- **Backend:** Spring Boot, Java / J2EE, Servlets, REST APIs, GraphQL, Microservices, OSGi (Apache Felix), Apache Sling, Sling Models
- **MERN Stack:** MongoDB, Express.js, React, Node.js – end-to-end JavaScript applications and APIs
- **Headless CMS / Content APIs:** AEM Content as a Service (CaaS), Content Fragments, Experience Fragments, GraphQL Persisted Queries, decoupled SPA architectures
- **AEM Expertise:** AEM 6.3 / 6.4 / 6.5 / AEM as a Cloud Service (AEMaaS), AEM Guides, Sites, Assets, DAM, Dynamic Media, Brand Portal, Adobe I/O Runtime, Adobe Cloud Manager, Core Components, Editable Templates, Workflows, MSM, Dispatcher, Run Modes, Granite UI, Coral UI, JCR API
- **AI & Automation:** AI-assisted development with Claude and GitHub Copilot, integration of LLM and generative AI APIs into content and translation workflows, prompt engineering, Adobe Sensei (Smart Tags, Smart Crop), automated content pipelines
- **Cloud & DevOps:** Microsoft Azure (App Service, Cognitive Search, Functions), GCP, AWS basics, Adobe Cloud Manager, Jenkins, Azure DevOps, Git, Bitbucket, Maven, NPM, Docker basics, CI/CD pipelines
- **Databases:** PostgreSQL, MySQL, MongoDB, Apache JCR / Oak
- **Security & Identity:** Okta OIDC, PingFederate SSO, SAML, AEM Closed User Groups (CUGs), OAuth 2.0
- **Integrations:** Salesforce, Oracle Fusion, Adobe Analytics, Adobe Target, Adobe Launch, Akamai CDN, SendGrid, YouTube APIs
- **Practices:** Agile / Scrum, code reviews, performance profiling, secure coding, technical documentation, mentoring

PROFESSIONAL EXPERIENCE

Hashout Technologies — Senior Full-Stack Developer | Aug 2024 – Present

Project: LinkedIn — Adobe Experience Manager Guides Solutioning | Mar 2025 – Present

- Leading end-to-end development of a structured authoring and publishing solution on AEM Guides for LinkedIn, modernizing their DITA-based content lifecycle.
- Designed and built a custom AEM translation connector that automates content export, vendor handoff, and re-import, eliminating manual steps and significantly reducing turnaround time across multilingual content sets.
- Configured folder profiles, DITA-OT pipelines, and PDF / JSON output presets to support large authoring teams and downstream consumers.

- Developed extensible AEM components, Sling Models, and workflows for review tasks, translation automation, and publishing pipelines.
- Partnered with business stakeholders to define solution architecture; currently in active development with phased rollouts planned.

Project: Cloud Software Group (CSG) — Platform Enablement | Mar 2025 – Present

- Led CRM migration enablement (Salesforce → Oracle Fusion); analyzed and refactored multiple Java, Python, and JavaScript codebases to align with the new CRM while preserving existing business functionality.
- Designed a Python-based ingestion service that loads Oracle Fusion data into an Azure Cognitive Search index, powering on-demand search APIs consumed by upstream applications (Citrix Partner Locator).
- Refactored and migrated a Spring Boot application that continues to power 20+ REST APIs post-migration; improved test coverage and reduced startup time.
- Contributed React, Vue.js, and Node.js features across business-unit web applications used by multiple internal teams.
- Integrated a React Single Page Application with AEM via the SPA Editor and optimized Webpack / TypeScript bundles for production.
- Replaced legacy SAML middleware with Okta OIDC, simplifying the auth flow and reducing maintenance overhead.
- Implemented product download authorization using AEM's User and Group Management (Closed User Groups).

Project: Software Downloads Portal Migration (CSG) | Aug 2024 – Mar 2025

- Migrated legacy Java downloads portals (tibco.com/downloads, spotfire.com/downloads, and others) to AEM 6.5.23 on Adobe Cloud Manager.
- Built the project skeleton, templates, components, Sling Models, and OSGi services; integrated EPM, Solid State DLM Downloader, SendGrid, and Akamai CDN.
- Architected a PIM → AEM import pipeline that programmatically creates Content Fragments and product download pages, enabling a headless / Content as a Service consumption model.
- Implemented user management, workflows, CUGs, replication agents, and PingFederate SSO; configured run modes and filters for author / publish / dispatcher.

VISA Inc. — Senior Software Engineer (Full-Stack) | May 2023 – Aug 2024

- Owned enterprise intranet platform enhancements used organization-wide (announcements, leave / holiday, timesheets, registrations).
- Modernized the frontend by migrating large AngularJS modules to React, improving component readability, maintainability, and runtime performance.
- Tuned search relevance and performance across frontend and backend; resolved high-priority defects to stabilize the platform.
- Partnered with product, design, and platform teams in an Agile setup, contributing to both UI and Java backend services.

Accenture Solutions — AEM Tech Lead / Full-Stack Developer | Sep 2021 – May 2023

Project: Blue Shield of California | Jun 2022 – May 2023

- Delivered the AEM migration for Blue Shield of California; built custom components, Sling Models, Servlets, and OSGi services.
- Implemented translation workflows and search using AEM indexes; created flexible form components with multiple layouts.
- Drove DAM improvements: search facets, metadata schemas, Smart Tags (Adobe Sensei AI), and platform stabilization by resolving critical defects.
- Developed React components for an AEM SPA Editor-based React-in-AEM architecture.

Project: Royal Caribbean Group | Sep 2021 – Jun 2022

- Enhanced royalcaribbean.com on AEM 6.5: Sling Models, OSGi services, configurations, run modes, editable templates, and Adobe Launch integration.
- Worked on Adobe Dynamic Media and front-end UI enhancements using JavaScript and jQuery.

Mindtree Limited — Senior Software Engineer (Full-Stack) | Jan 2019 – Sep 2021

Project: Kellogg's — Site Migration & E-Commerce | Feb 2021 – Sep 2021

- Led AEM 6.1 → 6.5 migration; built components, editable templates, Sling Models, OSGi configurations, services, and servlets.
- Designed and optimized checkout flow and cart logic for end-to-end ordering; troubleshoot production issues.
- Used Vue.js for selected frontend modules; ensured stable releases via Jenkins pipelines.

Project: Kellogg's — K.COM Consolidation | Aug 2020 – Feb 2021

- Automated PIM validation to guarantee data quality pre-publish across multiple brands.
- Developed Sling Models, Servlets, Workflows, preprocessors, editable templates, Core Components, and DAM integrations.

Project: Kellogg's — Project Engage | Jun 2019 – Aug 2020

- Built OSGi modules for global, recipe, and video search; integrated YouTube APIs and rich media.
- Scaled a multi-brand AEM architecture to onboard new sites rapidly; streamlined authoring with workflows and Core Components.

EDUCATION

B. Tech in Computer Science & Engineering — Rajasthan Technical University, Kota | Jun 2018

ADDITIONAL TOOLS & PLATFORMS

- **AEM:** 6.3 / 6.4 / 6.5, AEM as a Cloud Service, AEM Guides, Sites, Assets, Dynamic Media, Brand Portal, Adobe I/O, Adobe Cloud Manager
- **Frameworks:** Spring Boot, React, Node.js, Express.js, Vue.js, GraphQL
- **DevOps & SCM:** Git, Bitbucket, Azure DevOps, Jenkins, Maven, Adobe Cloud Manager, NPM, Webpack
- **Platforms:** Windows, macOS, Linux, Microsoft Azure, GCP, AEM Dispatcher, Akamai CDN

AWARDS & RECOGNITION

- Hashout Technologies: Organization-level Spotlight Award and multiple client appreciations.
- VISA Inc.: Multiple client appreciations and Spot-on awards.
- Accenture Solutions: Star Award for Adobe / Blue Shield of California delivery.
- Mindtree Limited: 60+ peer and manager recognition awards across projects.
